## **SCORE OFFERS FREE SMALL BUSINESS COUNSELING SERVICES AT NEW SAN LUIS OBISPO LOCATION**

San Luis Obispo, CA - Entrepreneurs throughout the San Luis Obispo County area are being offered a helping hand through the SCORE Counselors to America's Small Business. The chapter has recently moved to a brand new location at 711 Tank Farm Road, Suite 210 in San Luis Obispo.

The free consulting services are offered on a wide array of subjects from business planning, marketing, finance and information on applying for SBA loans. Workshops are also given for start-ups, and for those already in business. SLO SCORE also has an active mentoring program, assisting those who have specific business problems that can be addressed by a team of experienced mentors.

"SCORE realizes that business entrepreneurs are very busy and to leave their businesses for any length of time can be difficult. The new SCORE office offers a convenient location for our clients to take advantage of SCORE assistance. We look forward to working with entrepreneurs and assisting them in future endeavors," said David Bresnan, Chairperson, San Luis Obispo SCORE Chapter.

SCORE, a group of business executives who donate their time to provide advice and guidance to both start-up and existing small business entrepreneurs, is sponsored by the U. S. Small Business Administration. The nonprofit organization has numerous chapters located throughout the San Joaquin Valley and Central Coastal areas.

Entrepreneurs are encouraged to call the SLO SCORE office at (805) 547-0779 to arrange for a SCORE counseling appointment.

If you are a brand new start up business or an established growing company – SCORE advice is priceless!
